

## **Facilities Update 24<sup>th</sup> December 2010**

The development of our facilities continues to be something we're passionate and excited about! Our facilities will be far more than simply 'bricks & mortar'. They are going to be a critical part of seeing our Vision come to fulfilment!

Early 2011 will see:

- our Pastors/Staff team and Before/After School Care review the exciting concept drawings which have been received from our architect to ensure that they support the Vision of where we're going as a church (mid-January)
- us hear back from the Australian Taxation Office regarding our application for tax deductibility status for gifts toward facilities (late February/early March)
- finalisation of a Communication Strategy including key building and financial objectives (February)
- us identify a 'Design & Construct' Project Management Company to help our dreams become a reality sooner (March)

Please continue to pray for these ongoing discussions and as we seek Tax Deductibility status, workable architectural drawings and speak to potential project managers.
